

Testimonials

Brandon was very professional and checked things that I would never have thought to check. I would definitely recommend him to anyone buying or selling a home. In the future, I will be selling a home and will definitely be calling Brandon to do a pre-sale inspection. His report was very easy to read and to understand and made it easy for me to understand what needed to be fixed before I bought my home.

"My wife and I recently relocated. RHI was able to give us a home inspection before we put our house on the market. The information that Mr. Riecken gave us was integral in helping us sell our house. The inspection helped both us and our realtor know how to price our house and what we could tell prospective buyers. His inspection helped give us peace of mind that when our house sold, we wouldn't have any surprises. Now that it has sold, I can happily say there were no surprises. I highly recommend RHI, the professional and courteous work helped ease the tensions of selling a house in a difficult market."

Brandon L. Riecken was terrific. He was very energetic and allowed us to ask many questions and follow him around. As a young couple buying our first home he made this experience beyond easy and fun. He was very easy to talk to and used language we could understand about our home. If we ever need an inspection in the future Brandon will be our guy. We for sure will pass his name out as a knowledgeable home inspection person

"Brandon just did a home inspection for Marc and I. He did an amazing job and was very good at explaining what he was looking for. He took me through the house at the end of the inspection to show me the small things that he had found and answered any questions that I had. I enjoyed working with him and will refer him to anyone buying a new home!"
